**WorleyParsons awarded North American Enterprise Framework Agreement with Shell**

Shell has awarded WorleyParsons an Enterprise Framework Agreement (EFA) for work in the Americas, including the US and Canada. The five-year EFA plus optional 2-year renewal provides for the provision of the full range of engineering and procurement (EP) or engineering, procurement, and construction management (EPCM) services.

The EFA provides the opportunity to execute projects at Shell's downstream refining and chemical facilities throughout their North American portfolio, supply and distribution both on and offshore, unconventional resources, and other onshore projects.

WorleyParsons will be providing these services under its *Improve* business stream which is focused on delivering ongoing improvements to our customers' capital assets through long-term beneficial relationships.

Commenting, the Chief Executive Officer of WorleyParsons, John Grill said, "WorleyParsons has a strong global relationship with Shell. We look forward to providing total project delivery through our *Improve* services at Shell's sites and across their North American portfolio of projects."
